

Green Certificate

ENGIE confirms the delivery of Green Electricity to:

CIREX CZ s.r.o.

Congratulations on receiving your official Green Certificate from ENGIE. You have made a good and conscious choice by choosing energy from a sustainable source. We are proud that together we are now taking the step towards a CO₂-free world.

100% of your Green Electricity is generated from European Wind. No environmentally harmful fossil fuels are used in the generation from Green Electricity, and virtually no pollutants are released.

Delivery period:

1-1-2022 to 12-31-2023

Consumption:

6000 MWh

Zwolle 1-24-2022

ENGIE Energie Nederland B.V.

Menke Ubbens

100% Green Electricity from ENGIE

ENGIE works with businesses and consumers to create a sustainable world. Thank you for choosing Green Electricity from ENGIE. This means you are making a positive contribution to people, the environment and society.

Your positive contribution to the climate

Well done! Your company prevents a lot of air pollution annually. Under the former situation we would have had to plant 166800 trees to compensate for your CO₂ emissions.
